- Bachelor degree in computing or related subject or relevant commercial experience in a related role

Experience

- Worked in a web production environment
- Working with content management systems
- Development and project delivery using Agile (SCRUM) methodology
- Experience of Test or Behavior Driven Development
- Experience of user-centered design processes (desirable)

Skills, knowledge and abilities

- Excellent communication skills
- Problem solving aptitude
- PHP 7
- Laravel or Symfony frameworks
- MySQL
- REST APIs
- Unit testing
- OWASP
- Git Source control
- Website accessibility

Knowledge of any of the following would be advantageous:

- Amazon Web Services
- PHPCI or other continuous integration tools
- Agile (SCRUM) projects
- HTML 5, HTML 4, XHTML1.0
- CSS 2, CSS 3

- JavaScript
- jQuery
- Mobile first/responsive design
- Google Maps API/Geocoding
- Web standards

Motivation

- Ability to work on own initiative
- Willing to adapt and learn new skills

What can we offer you?

- A competitive salary
- Annual performance bonus
- Contributory pension scheme
- Flexible hours
- Flexible annual leave
- Free book allowance for work-relevant publications
- Individual training budget
- Cycle to work scheme
- Season ticket or parking loan scheme
- Birthday cake!
- To be surrounded by brilliant, talented and fun people in a growing business
- An opportunity to work with a growing brand and on a product with an ambitious roadmap
- An opportunity to work with advanced web technologies and be part of a culture that encourages innovation
- Working in a great location in central St Albans, bang in the middle of all the shops, restaurants and bars.
