

Graduate User Tester / Data Analyst

St Albans

£22,000 to £26,000 + Bonus + Pension

Are you someone who has a keen eye for detail, who can spot anomalies on the way web pages look and function? Do you also like analysing data to help decision making? If so, you may be the person we are looking for!

Reallymoving.com Ltd. is a rapidly growing business, based in the centre of St Albans, with 2 website brands:

- [reallymoving](#) – the UK's leading online provider of quotes for home-moving services, with over 2 million registered users.
- [The Law Superstore](#) - a comparison site for a broad range of legal services

We are seeking a highly numerate and enthusiastic Graduate User Tester / Data Analyst who would be excited at the prospect of joining a young entrepreneurial business based in the centre of a great city just outside London. We are looking for someone that can bring creativity, lateral thinking, flare and a new perspective to an already successful team.

We require someone that can test the functionality of website changes from a user perspective, including helping to set up automated testing of website forms. You will use your data analytics talents to assess the impacts of these amendments once implemented on the live site.

The role will also involve extensive analysis of business performance to identify areas for improvement and growth opportunities, helping management to make informed decisions.

This vacancy will suit a bright and motivated graduate. Previous user testing experience is not essential, as full training will be provided, but a passion and aptitude for data analytics is critical.

Responsibilities:

- Assist in developing testing plans for testing forms/pages across desktop, mobile and tablet devices.
- Test according to these plans and report any problems, liaising with the software developers where necessary, and seeing changes through to implementation.
- Carry out data analysis to track website performance. This will include using tools such as Google Analytics & SQL (training will be given).
- Use analytics data to identify & track website issues or opportunities.
- The job holder will also be expected to assist with other office administrative duties as required.

Requirements:

- A bright motivated graduate in a numerate subject or similar calibre individual.
- Good analytical skills with an eye for detail.
- IT literate and competent with MS Office suite, in particular strong MS Excel skills and ideally experience of working with databases.
- Strong teamwork skills, time management, motivation and ability to work autonomously.
- Desire to work in a small, but growing business and therefore flexible to new demands.

What can we offer you?

- Annual performance bonus
- Contributory pension scheme
- Free book allowance for work-relevant publications
- Individual training budget
- Cycle to work scheme
- Interest-free loans for travel season ticket or parking available
- Birthday cake!
- To be surrounded by brilliant, talented and fun people in a growing business
- An opportunity to work with a growing brand and on a product with an ambitious roadmap
- Working in a great location in central St Albans, bang in the middle of all the shops, restaurants and bars.

Please get in touch to start what could be the beginning of an exciting career!
