

User Tester - St Albans - £19,000pa + bonus and perks

Do you ever find websites that don't work well? Are you someone who has a keen eye for detail, who can spot anomalies and bugs in the way web pages look and function? If so, you may be the person we are looking for!

Reallymoving.com Ltd. is a rapidly growing business based in the centre of St Albans. We have 2 website brands:

- [reallymoving](#) – a leading provider of instant quotes for home moving services
- [The Law Superstore](#) - a comparison site for a broad range of legal services

What you'll be doing:

We're looking for a manual user tester to join our Testing Team. There are always lots of changes being made to our websites and back end systems/databases and these need to be tested rigorously to make sure that they behave in the expected manner.

With our guidance, you'll assist in developing test plans for testing forms/pages across desktop, mobile and tablet devices and different browsers.

You will use the website according to the test plans and report any problems found in a systematic way, liaising with the software developers where necessary, seeing changes through to a swift and successful resolution.

You will be taught how write queries in SQL, a programming language used to access database information, to help you check system changes.

There may also be the opportunity to get involved in special projects and analysis, for example, secret shopper exercises or testing of the same page with slight variations to see which works best.

Requirements:

We are looking for a bright, motivated individual who wants to work for a small business and make a difference.

An eagerness to learn and a proactive attitude is essential. You will need to enjoy working as part of a team, but you will also be able to work on your own when necessary.

There may be times where you may be working on more than one project, so you'll need to be able to multitask.

Strong IT literacy and competence in MS Office, including Excel, is essential. An ability to quickly grasp new systems is a must within this technology-based business

What can we offer you?

We invest in our employees, so you will receive additional training to enhance your career path.

We offer everyone a personal training budget and we are happy to fund the unlimited purchase of publications and books to help you along the way.

We ensure that everyone takes a share in the success of the business in an annual bonus.

We have a friendly, fun and supportive culture – we even buy everyone a cake on their Birthday!

Of course, we provide all the other benefits like pension, holiday, season ticket loans, cycle to work and free fruit in the office. If this sounds like something you would like to be part of, then apply now. Please send your CV to jobs@reallymoving.com
